EDUCATION

Indian Institute of Information Technology Guwahati

Bachelor of Technology in Electronics and Communication Engineering (CPI: 7.7)

Assam, India

Dec 2021 – June 2025

TECHNICAL SKILLS

Languages: C++, Java, Javascript, Python, SQL,

Frontend: React.js, Redux, HTML, CSS, Tailwind CSS, MUI

Backend: Node.js, Express.js, Socket.io

Databases: MongoDB, MySQL

Developer Tools: Git, Github, Visual Studio, Postman

Skill Set: Competitive Programming, Data Structures, Algorithms, OOPs, DBMS, MERN Stack Web Development

EXPERIENCE

Web Developer Intern

June 2025 – July 2025

Tamizhan Skills

Remote

- **Designed and developed** multiple responsive front-end websites, including a modern **e-commerce product page** and a **startup landing page**, with emphasis on clean UI/UX and mobile-first design
- Built a comprehensive **Student Management Dashboard** from scratch, implementing full **CRUD** (Create, Read, Update, Delete) functionality for efficient data administration.
- Contributed to the development of a complete **college club website** and other **frontend projects**, gaining practical experience in both React and Node.js.
- Applied modern styling techniques using **Tailwind CSS** to deliver professional-grade, custom interfaces across all assigned projects.

PROJECTS

WriteFlow

React.js, Node.js, Express.js, MongoDB, JWT, React Context API, Tailwind CSS)

Sept 2025

- **Engineered** a full-stack **MERN** application, **WriteFlow**, designed as a **Secure Markdown Blog Platform** featuring user authentication and full CRUD functionality
- **Developed** a responsive, real-time **Markdown editor** using `react-markdown`, supporting **syntax highlighting** and **GitHub Flavored Markdown (GFM)**.
- **Managed** global application state (user authentication, theme) with the **React Context API** and designed the UI using **Tailwind CSS**.

E-Commerce

React.js, Node.js, Express.js, MongoDB, JWT, Redux, Tailwind CSS

April 2025

- Developed a full-stack e-commerce website with user authentication, cart, and order management features.
- Built **RESTful APIs** using Node.js and Express.js and integrated MongoDB for database operations.
- Designed a responsive and dynamic frontend with **React.js**, **Redux** for state management, and Tailwind CSS for styling.
- Implemented an admin dashboard for managing products, users, and orders.

EliteChess

React.js, Node.js, Express.js, Socket.io, MUI (Material-UI)

June 2024

- Engineered a real-time multiplayer chess platform using React and Node.js, implementing features such as player matchmaking, draw offers, resignations, and time controls.
- **Designed a Chess AI with Min-Max Algorithm and Alpha-Beta Pruning**, resulting in improved solo gameplay and a 40% reduction in move computation time.
- **Optimized real-time game state management and in-game chat using Socket.IO**, ensuring a 99% uptime for smooth and responsive gameplay.
- Added Firebase authentication for user login and signup and Managed real-time game state using Socket.IO.

ACHIEVEMENTS AND HONORS

- Achieved **(1561) Contest rating** on **LeetCode**
- Achieved **2-star rating (1457)** on **Codechef**.
- Solved **500+ coding problems** on LeetCode and **GeeksForGeeks**.
